2010-2011 SES Provider Application
Questions and Answers #4
January 15, 2010

Question #1 (question from WebEx training on 1/12/10)

Do I provide a lesson plan for math and reading per grade level? Or do I just provide one lesson plan for math and one for language art/reading (random grade)?

Answer #1

Applicants do not need to submit a lesson plan for every grade level they intend to serve. Applicants only need to submit one sample lesson plan for each subject area in which they intend to tutor. Applicants may submit sample lesson plans by selecting the same grade level for each subject area in which they intend to tutor (e.g. Grade 1 for Reading Lesson Plan, Grade 1 for Math Lesson Plan and Grade 1 for Science Lesson Plan) or different grade levels for each subject area (e.g. Grade 1 for Reading Lesson Plan, Grade 3 for Math Lesson Plan and Grade 5 for Science Lesson Plan).

Question #2

I am in the process of applying to be a vendor for this upcoming season and would like to know if I need to apply for an Indiana business license prior to or after the approval process?

Answer #2

Part Three Section III Question #1 in the application (page 13) states that applications for business licenses, Certificates of authority, sole proprietorship, 501c3 status etc. will not be accepted. Therefore, applicants will need to have documentation of their legal status with respect to conducting business in Indiana before submitting their application.
